

Coyoted Concerns Collingwood

An organized effort is developing to act on concerns of having wild coyotes roaming at large in Collingwood.

To date the Town of Collingwood and OPP are not acting.

A Facebook group has been created to share information and engage residents and visitors to Collingwood to become aware of this issue, what is being done and how to participate.

<https://www.facebook.com/groups/CoyoteConcernsCollingwood/>

A website has also been created to share information.

www.CoyoteConcernsCollingwood.com

This is the kind of issue that needs public awareness and action to work together to keep our community at an acceptable safety level.
