Subject: Coyote Issue - Nip Spooner Park - Georgian Manor Dr Collingwood - Please Close do to Danger

Please be advised coyote(s) are roaming at large frequently on Nip Spooner Park. I believe your "coyote sightings" form was not notified of this, is not reliable and actionable. I believe a call from a resident on Huronia Pathway was dismissed by the Town of Collingwood.

Small children and small dogs visit this park and are neighbours to this park. I realize any action is contrary to the actions to date and to the awareness and coexist campaign of Coyote Watch Canada and MNR; but now that you are aware of the risks of coyotes to people and our pets, the park should be closed until you deal with the coyotes.

A resident on Huronia Pathway is interested in participating in a trapping program to deal with the coyotes in our area. This resident has a small dog and realizes coyotes will attach her dog on a leash. The coyotes are frequent visitors to her property day and night. It is difficult to determine a safe time to leave her house and walk her dog.

Please respond.

Regards,

Jeff BROWN

Subject: Coyote Issue - Town of Collingwood Property at Blue Shores East Shoreline - Danger

Flag Status: Flagged

Please be advised coyote(s) are roaming at large on Town of Collingwood property and onto abutting residential properties on the East Shoreline of Blue Shores development and the neighboring development. I believe your "coyote sightings" form was not notified of this, is not reliable and actionable. I believe a call from the Board of Director of Blue Shores was dismissed by the Town of Collingwood.

March break is approaching and many grandchildren visit Blue Shores. I realize any action is contrary to the actions to date and to the awareness and coexist campaigns of Coyote Watch Canada and MNR; but now that you are aware of the risks of coyotes to people and our pets, the Town property in this area should be prevented to house coyotes. They frequent this property daily and use it as a home base to roam at large into the Georgian Manor Drive area and Blue Shores.

A coordinated effort (residents, Town of Collingwood and OPP) to close access to this area and trap the coyotes should be seriously examined ASAP.

Please respond.

Regards,

[REDACTED]
